

EXPORT CLAIM

In every location in which Serva Software does business, laws and regulations govern trade. Compliance with U.S. export laws and regulations govern the export of both tangible and intangible articles whether within the United States or abroad. No Serva Software transaction that is contrary to this policy may be executed under any circumstance.

Serva Software technologies, products, and services are subject to US Export rules known as Export Administration Regulations (EAR) and enforced by U.S. Department of Commerce Bureau of Industry and Security (BIS).

Without prior authorization from the U.S. government, Serva Software goods, software, technology (including technical data), and services may not be exported, re-exported, or sold, directly or indirectly, to:

- Any E:1 (as defined in the EAR) or sanctioned country; or
- Persons or entities on any restricted list maintained by the U.S. government or any foreign governing agency, including but not limited to: the Specially Designated Nationals List, Denied Person's List, Entity List, Unverified List, Debarment List, System for Award Management debarment list, or Nonproliferation List; or
- Persons or entities known or believed to be involved in the design, development, manufacture, or production of nuclear technology, or nuclear, biological or chemical weapons of mass destruction.
